**Selezione di varietà e colori con fiori resistenti a pioggia e temperature vicine allo 0°C
Ideali per aiuole nell'area mediterranea e nei centri urbani**

*Selection of varieties and colours with rain-tolerant flowers hardy to around 0°C
Ideal for Mediterranean climates either in flowerbeds, borders or large containers*

*Selektion von Sorten und Farben mit regentoleranten Blüten und einer Beständigkeit gegen Kälte bis ca. 0°C
Ideal für ein mediterranes Klima, zur Verwendung beispielsweise in Beeten, Rabatten oder großen Pflanztöpfen*

FIORE MEDIO: per le zone più difficili

**I più resistenti, soprattutto i Tianis Fantasia, con fiori e petali più duraturi
Richiedono poca manutenzione e resistono per alcune ore a temperature rigide**

*The most resistant varieties, especially Tianis Fantasia with its long-lasting flowers
Easy to care for and tolerates very low temperatures only for a short time*

Äußerst widerstandsfähige Sorten, insbesondere Tianis Fantasia mit ihren langlebigen Blüten

Pflegeleicht, vertragen selbst sehr niedrige Temperaturen für einige Stunden

Irrigare il terreno il giorno prima di piantare. Si consiglia poi l'innaffiatura sotto le foglie e al mattino, meno di frequenze in inverno. Togliere i fiori appassiti ogni 2-3 settimane per fioriture più belle.

Drench the ground the day before planting. We recommend watering under the leaves in the morning, less often in winter. Deadhead every 2-3 weeks for more beautiful blooms

Den Boden am Tag vor dem Pflanzen gut wässern. Wir empfehlen, morgens unterhalb des Blattwerks zu gießen, im Winter seltener. Entfernen Sie alle 2-3 Wochen verwelkte Blüten für einen üppigen, kontinuierlichen Flor

METIS VICTORIA DECO

Fiori raffinati, frangiati e bicolori. Spesso anche profumati

Sophisticated fringed and bicoloured flowers, which are often scented

Extravagant gesäumte, zweifarbige Blüten, die häufig auch duften

00 91 80 **VICTORIA DECO MIX

Il profumo

Il profumo deriva dagli oli essenziali che si sviluppano nei fiori quando sono maturi o dotati di polline. I fiori ancora giovani o troppo vecchi invece non profumano.

The scent comes from the essential oils which develop in the flowers, when these are mature or bearing pollen. However, very young or old flowers have no scent.

Der Duft der Blüten entsteht durch ätherische Öle, die sich während des Reifeprozesses der Blüte bilden oder solange diese Blütenpollen tragen. Junge oder sehr reife Blüten duften hingegen nicht.
